Bicycle & Pedestrian Facility Plan

Bicycle & Pedestrian Facility Toolbox

	Off-Road				On-Road			
	Path—Natural	Path—Improved	Sidewalk	Trail	Shoulder/Striping	Advisory Shoulder	Shared Lane	Bike Lane
Description	Pathway that is intended for use by pedestrians to connect various destinations.	Pathway that is intended for use by pedestrians to connect various destinations.	Concrete pathway parallel to the road that is intended for use by pedestrians with numerous access points to adjacent land uses.	Paved pathway at least 8' wide that is used by both bicyclists and pedestrians.	Paved shoulder with signage, striping, or coloring to designate use by bicyclists or pedestrians, particularly when other dedicated facilities are not feasible.	Usable shoulders for bicyclists delineated by pavement marking and optional pavement color. Motorists may only enter the shoulder when no bicyclists are present.	Roadway with travel lanes that are shared by both vehicles and bicycles. Signage and striping, such as sharrows, can be used to designate the shared lane.	Portion of the roadway at least 5' wide and designated for exclusive use by bicyclists with pavement markings and possibly signage.
