Pre-orders only. **Orders due June 8, 2021**

Scheduled pickups on June 12 at

Penguin Court

104 California Avenue

Laughlintown, PA 15655

PERENNIALS

4-INCH POTS \$5.50 EACH

Anise Hyssop
(*Agastache foeniculum*)
Bloom Range: June – Sept
Height: 2-3 feet
Light: Sun – part sun
Soil: Medium – Medium dry
Attracts: Butterflies, bees
Deer Resistant: Yes
Host to: 3 caterpillar species
Smells like licorice!

Blue Vervain
(*Verbena hastata*)
Bloom Range: July – Sept
Height: 5 feet
Light: Sun – part sun
Soil: Wet – Moderately moist
Attracts: Butterflies, bees
Deer Resistant: Yes
Host to: 11 caterpillar species
Great for rain gardens!

Aromatic Aster
(*Symphyotrichum oblongifolium*)
Bloom Range: August – Nov
Height: 2 feet
Light: Sun
Soil: Moderately dry – Dry
Attracts: Late season pollinators
Deer Resistant: No
Host to: 11 caterpillar species

Bradbury's Monarda
(*Monarda bradburiana*)
Bloom Range: May – July
Height: 2 feet
Light: Sun – part sun
Soil: Moderate
Attracts: Hummingbirds, bees
Deer Resistant: Yes
Host to: 11 caterpillar species
**Blooms before other monardas
and resistant to powdery mildew!**

Black-eyed Susan
(*Rudbeckia hirta*)
Bloom Range: June – October
Height: 2 feet
Light: Sun – part sun
Soil: Medium wet – Med. dry
Attracts: Birds, insects
Deer Resistant: Yes
Host to: 18 caterpillar species

Butterfly Weed
(*Asclepias tuberosa*)
Bloom Range: June – August
Height: 2 feet
Light: Sun – part sun
Soil: Moderate – Dry
Attracts: Butterflies, bees
Deer Resistant: Yes
Host to: 13 caterpillar species

Cardinal Flower
(Lobelia cardinalis)
Bloom Range: July – Sept
Height: up to 4 feet
Light: Sun – part sun
Soil: Wet – Moderately wet
Attracts: Hummingbirds, bees
Deer Resistant: Yes
Host to: 6 caterpillar species

Dense Blazing Star
(Liatris spicata)
Bloom: July – September
Height: up to 5 feet
Light: Sun – part sun
Soil: Wet – Moderately moist
Attracts: Bees, butterflies
Deer Resistant: Yes

Carolina Lupine
(Thermopsis caroliniana)
Bloom Range: May – June
Height: 4 feet
Light: Sun
Soil: Moderately moist – Dry
Attracts: Bees, butterflies
Deer Resistant: Yes
Host to: 6 caterpillar species

Foxglove Beardtongue
(Penstemon digitalis)
Bloom: June – July
Height: 4 feet
Light: Sun – part sun
Soil: Medium – Medium dry
Attracts: Bees, hummingbirds
Deer Resistant: Yes
Host to: 10 caterpillars
Long bloomer!

Common Milkweed
(Asclepias syriaca)
Bloom Range: June – August
Height: up to 5 feet
Light: Full sun – part sun
Soil: Medium wet – Dry
Attracts: Monarchs, pollinators
Deer Resistant: Yes
Host to: 13 caterpillar species

Great Blue Lobelia
(Lobelia siphilitica)
Bloom: July – October
Height: 3 feet
Light: Sun – part sun
Soil: Wet – Moderate
Attracts: Hummingbirds, insects
Deer Resistant: Yes
Blooms a little longer & later than cardinal lobelia!

Common Mountain Mint
(Pycnanthemum virginianum)
Bloom Range: June – September
Height: 3 feet
Light: Sun – part sun
Soil: Wet – Moderately dry
Attracts: Pollinators
Deer Resistant: Yes
Host to: 4 caterpillar species
Limited quantities!

Hoary Skullcap
(Scutellaria incana)
Bloom: June – September
Height: 3 feet
Light: Part sun
Soil: Moderate – Mod. dry
Attracts: Butterflies, bees
Deer Resistant: Yes

Late Figwort
(Scrophularia marilandica)
Bloom: July – October
Height: 5-6 feet
Light: Sun – Shade
Soil: Medium – Med. dry
Attracts: Bees, hummingbirds
Deer Resistant: Yes
Host to: 5 caterpillar species

New York Ironweed
(Vernonia noveboracensis)
Bloom: July – September
Height: up to 6 feet
Light: Sun – part sun
Soil: Medium wet – Medium
Attracts: Butterflies, birds
Deer Resistant: Yes
Host to: 24 caterpillar species
Amazing color!

Maryland Golden Aster
(Chrysopsis mariana)
Bloom Range: August – October
Height: 1-2 feet
Light: Sun – part sun
Soil: Mod. moist – Mod. dry
Attracts: Butterflies, bees
Deer Resistant: Moderately
Host to: 4 caterpillar species
Late, great bloomer!

Obedient Plant
(Physotegia virginiana)
Bloom Range: August – Sept
Height: 3-4 feet
Light: Sun – part sun
Soil: Wet – Moderately moist
Attracts: Butterflies, bees
Deer Resistant: Yes
Host to: 11 caterpillar species
Limited quantities! Hummingbird magnet! Long lasting flower!

Monkey Flower
(Mimulus ringens)
Bloom Range: June – Sept
Height: 2 feet
Light: Sun – part sun
Soil: Wet – Moderately moist
Attracts: Bumblebees
Deer Resistant: Yes
Host to: 5 caterpillar species

Oxeye Sunflower
(Heliopsis helianthoides)
Bloom: June – September
Height: 4-5 feet
Light: Sun – part sun
Soil: Med. wet – Med. dry
Attracts: Birds, insects
Deer Resistant: Yes
Host to: 1 caterpillar species
Limited quantities! Extremely long bloomer!

New England Aster
(Symphyotrichum novae-angliae)
Bloom: August – October
Height: up to 5 feet
Light: Sun – part sun
Soil: Wet – Moderately dry
Attracts: Pollinators, birds
Deer Resistant: Yes
Host to: 11 caterpillar species
Great for late season pollinators.

Purple Coneflower
(Echinacea purpurea)
Bloom: July – September
Height: 4 feet
Light: Sun – part sun
Soil: Medium wet – Med dry
Attracts: Birds, bees, butterflies
Deer Resistant: Yes
Birds love the dried seed heads.

Rattlesnake Master
(Eryngium yuccifolium)
Bloom Range: July – Sept
Height: 4 feet
Light: Sun
Soil: Med. Wet – Med. dry
Attracts: Pollinators
Deer Resistant: Yes
Host to: 3 caterpillar species
Unique plant! Pollinators love it.

Showy Goldenrod
(Solidago speciosa)
Bloom Range: Sept – Nov
Height: 5 feet
Light: Sun – part sun
Soil: Moderate – Dry
Attracts: Bees, butterflies, birds
Deer Resistant: Yes
Host to: 126 caterpillar species

Red Columbine
(Aquilegia canadensis)
Bloom Range: April – June
Height: 2 feet
Light: Sun – shade
Soil: Moderate – Dry
Attracts: Hummingbirds, bees
Deer Resistant: Yes
Host to: 12 caterpillar species
Limited quantities! Early bloomer!

Shrubby St. John's Wort
(Hypericum prolificum)
Bloom: July – September
Height: 5 feet
Light: Sun – part sun
Soil: Medium wet – Med. dry
Attracts: Bees, butterflies, birds
Deer Resistant: Yes
Host to: 20 caterpillar species

Royal Catchfly
(Silene regia)
Bloom Range: June – August
Height: 4 feet
Light: Sun – part sun
Soil: Med. – Med. dry
Attracts: Butterflies, bees
Deer Resistant: Yes
Host to: 5 caterpillar species

Spotted Bee Balm
(Monarda punctata)
Bloom Range: July – September
Height: up to 2 feet
Light: Sun – part sun
Soil: Moderately dry – Dry
Attracts: Bees
Deer Resistant: Yes
Host to: 11 caterpillar species
Unusual plant & bees love it!

Scarlet Bee Balm
(Monarda didyma)
Bloom: June – September
Height: up to 4 feet
Light: Sun – part sun
Soil: Medium wet – Medium
Attracts: Hummingbirds, bees
Deer Resistant: Yes
Host to: 11 caterpillar species
Hummingbird magnet!

Spotted Joe Pye Weed
(Eutrochium maculatum)
Bloom: July – September
Height: 6 feet
Light: Sun – part sun
Soil: Wet – Medium wet
Attracts: Pollinators
Deer Resistant: Yes
Host to: 2 caterpillar species
Butterfly magnet!

Sundial Lupine
(Lupinus perennis)
Bloom Range: May – July
Height: 2 feet
Light: Sun – part sun
Soil: Medium dry – Dry
Attracts: Karner blue butterfly
Deer Resistant: Yes
Host to: 28 caterpillar species

Virginia Spiderwort
(Tradescantia virginiana)
Bloom: May – July
Height: 2 feet
Light: Sun – part sun
Soil: Moderately dry – Dry
Attracts: Bees
Deer Resistant: Yes
Host to: 4 caterpillar species

Swamp Milkweed
(Asclepias incarnata)
Bloom: June – August
Height: 4 feet
Light: Sun – Shade
Soil: Wet – Moderate
Attracts: Butterflies, bees
Deer Resistant: Yes
Host to: 13 caterpillar species
Monarch caterpillars love this!

Whorled Milkweed
(Asclepias verticillata)
Bloom: July – September
Height: 2 feet
Light: Sun – part sun
Soil: Moderate – Dry
Attracts: Bees, Butterflies
Deer Resistant: Yes
Host to: 13 caterpillar species
Unique milkweed—white!

Sweet Goldenrod
(Solidago odora)
Bloom: August – September
Height: 3 feet
Light: Sun – part sun
Soil: Moderate – Dry
Attracts: Pollinators, birds
Deer Resistant: Yes
Host to: 126 caterpillar species
Less aggressive & smells like anise!

Whorled Mountain Mint
(Pycnanthemum verticillatum)
Bloom: July—August
Height: 3 feet
Light: Sun – part sun
Soil: Moderate – Mod. dry
Attracts: Pollinators
Deer Resistant: Yes
Host to: 4 caterpillar species
Pollinator magnet!

Virginia Meadow Beauty
(Rhexia virginica)
Bloom: July – September
Height: 1 foot
Light: Sun – Part sun
Soil: Wet – Moderately wet
Attracts: Butterflies, bees
Deer Resistant: Unknown
Host to: 3 caterpillar species

Wild Bergamot
(Monarda fistulosa)
Bloom Range: July – Sept
Height: up to 4 feet
Light: Sun – part sun
Soil: Moderately wet – Dry
Attracts: Hummingbirds
Deer Resistant: Yes
Host to: 11 caterpillar species

Wild Petunia
(Ruellia humilis)
Bloom: June – August
Height: 1 foot
Light: Sun
Soil: Moderate – dry
Attracts: Pollinators
Deer Resistant: No

Wild Senna
(Senna hebecarpa)
Bloom: July – August
Height: 5 feet
Light: Sun – part sun
Soil: Medium wet – Medium
Attracts: Pollinators
Deer Resistant: No
Host to: 5 caterpillar species
Fixes Nitrogen in the soil.

VINES

VINES ARE GROWING FAST!

\$8.00 EACH

Trumpet Creeper Vine
(Campsis radicans)
Bloom: June – September
Height: 35 feet
Light: Sun
Soil: Moderately moist – Dry
Attracts: Hummingbirds!
Deer Resistant: Somewhat
Host to: 6 caterpillar species
Very limited quantities!

The National Wildlife Federation has a Native Plant Finder tool that will help landowners identify which plants are native to their zip code and what species of butterflies and moths are known to utilize those plants, at genus level, as hosts for their caterpillars. Use it here:
www.nwf.org/nativeplantfinder/.

Incorporating native plants with a variety of bloom shapes, sizes, colors and bloom times diversifies your landscape, making it even more appealing to a variety of wildlife year round! Planting in masses or drifts with three or more plants of each species attracts pollinators and looks fabulous, too!

Keep these pages for reference when planting!

SHRUBS

SHRUBS ARE ABOUT 2-3 FEET TALL

\$8.00 EACH

Buttonbush
(Cephalanthus occidentalis)
Bloom: June – August
Height: up to 12 feet
Width: up to 8 feet
Light: Sun – part sun
Soil: Wet – Moderately wet
Attracts: Bees, Butterflies
Deer Resistant: Yes
Host to: 25 caterpillar species
Awesome flowers!

Eastern Sweet Shrub
(Calycanthus floridus)
Bloom: April – July
Height: up to 11 feet
Width: up to 11 feet
Light: Sun – part sun
Soil: Moderately moist
Attracts: Butterflies, Beetles
Deer Resistant: Yes
Host to: 3 caterpillar species
Smells nice!

TREES

TREES ARE ABOUT 30-40” TALL

\$10.00 EACH

Kousa Dogwood
(Cornus kousa)
Bloom: May – June
Height: up to 25 feet
Light: Sun – part sun
Soil: Moderately moist
Attracts: Pollinators
Deer Resistant: Yes
Non-native

Paw Paw
(Asimina triloba)
Bloom: April – May
Height: up to 30 feet
Light: Sun – part sun
Soil: Wet – Moderate
Attracts: Wildlife
Deer Resistant: Yes
Host to: 10 caterpillar species
Edible & unique fruit!

**Thank you for your interest in
native plants!**

Penguin Court, a Preserve of the Brandywine Conservancy, located in Laughlintown, PA, is pleased to grow a variety of species that will beautify your yard and support a diversity of pollinators and wildlife.

Please note that deer “resistant” doesn’t mean deer proof!
Plus, some plants fall prey to rabbits and groundhogs.

ORDERING INFORMATION

Please send your order and check to Penguin Court so that it is received by June 8, as outlined on the Order Form. Don’t delay! People love their native plants, and we expect to sell out of several species.

All orders need picked up on Saturday, June 12 at Penguin Court. After your order is received, Penguin Court will contact you to schedule a pick up time to avoid congestion and maintain social distancing.

Questions? Contact us at
724-238-4991 or
PenguinCourt@brandywine.org.

Thank you for support of our sale!
Proceeds benefit Penguin Court.
